
DIGITAL GROWTH PLAN · 2026

Own the audience for every boat you *sell*.

A plan to put Yellowfin, Nor-Tech, Cape Horn, Jupiter and Premier in front of the right buyers on the Chesapeake — and to turn every inquiry into a lead *you* own, not one you rent from a marketplace.

PREPARED FOR

Mike Hatcher · PYY Marine

LOCATIONS

Pasadena & Ocean City, MD

FOCUS

Brand awareness & owned lead generation

— WHERE YOU START FROM

More than a dealer — *and it should show.*

You run new-boat sales, a full-service yard, outboard rigging, slips and winter storage across two locations. Buyers stay with you for the life of the boat, not just the sale.

◆ Two homes on the water

Pasadena Yacht Yard and Ocean City — the length of the Maryland season.

◆ Sales + service + storage

A full-service relationship most marketplaces can't represent.

◆ Premium, high-consideration boats

The exact category that rewards precise, brand-led marketing.

PHOTO SLOT

PYY Marine

Your yard, your team, your two locations

Swap in a hero shot of the yard or a flagship on the Bay — your own photography beats any stock image.

— THE LINEUP

Five builders. Each deserves *its own stage*.

Today your brands share one inventory list. We give each builder a real page — its own story, styling and boats — so a Yellowfin buyer and a Premier buyer each land somewhere built for them.

SERVICE

— THE CORE SHIFT

Stop *renting* your buyers from the marketplaces.

Boats.com, Boat Trader and YachtWorld send leads — but you pay per lead, that lead is shared with every competitor on the page, and you never keep the buyer's data. The goal isn't to drop them; it's to stop *depending* on them.

RENTING · TODAY

Marketplace leads

- ✗ Pay per lead, every month, forever
- ✗ The same buyer is sold to your competitors
- ✗ No email, no pixel, no data you keep
- ✗ You can't retarget or follow up on your own

OWNING · THE PLAN

Your own audience

- ✓ Leads come to your site & your CRM — exclusively yours
- ✓ Every visitor is pixelated and re-targetable
- ✓ Emails & phone numbers you keep and remarket to
- ✓ Cost per lead falls as your audience compounds

Keep the marketplaces as a top-of-funnel source — but make your own channels the engine that actually owns the buyer.

— THE HUB

A site your brands — and buyers — *deserve.*

A modern, image-led dealer site is where every ad, post and email points back. It's the property you own, and the first place a buyer decides you're the right dealer.

◆ A page per builder

Yellowfin, Nor-Tech, Cape Horn, Jupiter, Premier — plus service & storage.

◆ A live inventory feed

Every new & brokerage boat, always current, with a sold archive.

◆ 24/7 AI chat

Captures the 11pm inquiry into your CRM instead of losing it.

◆ Built for Google & AI search

So buyers find PYY directly — not only through a marketplace.

A representative build — we'd design PYY's around your five builders and your photography.

— THE ENGINE · CRM-DRIVEN ADS

Capture once. Target, retarget, *repeat*.

A CRM is what turns traffic into an asset. Every lead flows into one system — ours, or a **HubSpot** / **GoHighLevel** setup we build and run for you — and that data becomes the targeting behind smarter, cheaper ads.

The buyer who browsed your Nor-Tech 390 at midnight sees it again tomorrow — with your name on it, not a marketplace's.

— WHAT KEEPS IT RUNNING

Always-on content that *feeds the machine*.

Awareness for Yellowfin and Nor-Tech isn't one campaign — it's a steady drumbeat. We produce it and a human concierge proofs and publishes it, so it never lands back on your team.

Social & reels

Your boats, cross-posted to Facebook, Instagram, LinkedIn & X with trending hashtags.

Articles & SEO

Content that makes PYY findable in Google and in AI answers — and feeds your social.

Email remarketing

Monthly digests to your CRM list, segmented by builder and buyer profile.

Targeted paid ads

Creative built from your inventory, geofenced to the Chesapeake & Mid-Atlantic.

— THIS ISN'T THEORY

We already run this for a *multi-brand dealer*.

We build and operate the full engine for Valhalla Yacht Sales — a multi-brand dealer with your exact challenge: many builders, a live inventory feed, and a need to turn traffic into leads they own.

Same playbook, tailored to PYY: brand pages per builder, a live feed, and CRM-driven targeting and retargeting behind it all.

- ◇ **A page per builder**
Each brand with its own story and boats — a natural home for the Yellowfin & Nor-Tech push.
- ◇ **A live inventory feed**
Every listing pulls in automatically and stays current.
- ◇ **CRM lead capture**
Site, chat and ad inquiries land in one place, ready to retarget.
- ◇ **Run by yacht people**
Led by Josh Valoes — ex-Marketing Director, Denison Yachting; VP & CMO, YATCO.

— WHAT TO EXPECT

Results you can *watch happen*.

One dashboard — leads, site visitors, ad spend and cost-per-lead in real time. When we meet, we'll open the actual back-end and walk you through the numbers a dealer like PYY can expect.

OWNED LEADS

Named inquiries in your CRM — from ads, chat & SEO, exclusively yours.

COST PER LEAD

Falls month over month as retargeting audiences compound.

FIRST LEADS IN

~30d

Paid social typically produces inquiries inside 30 days.

SITE LIVE IN

10–14d

Under two weeks; content and capture start immediately.

Directional figures from how we run other dealers — your numbers will reflect PYY's brands, locations and audience. We'll show you the real dashboards in person.

NEXT STEP

A half hour at your office, *next week.*

01**We come to Pasadena**

Thirty minutes, in person — a working walkthrough, not a pitch for its own sake.

03**The results you can expect**

Real numbers for a dealer like PYY, and a first plan for the Yellowfin & Nor-Tech push.

The brands are yours. Let's make the *audience* yours too.

Thank you, Mike. Half an hour next week and we'll show you exactly how it runs.
