DEALERSHIP

PYY Marine · Pasadena & Ocean City, MD

FROM

Yachting Advisors

— WHAT WE SEE IN PYY MARINE

More than a dealer — *and it should show.*

You run sales, a full-service yard, slips and storage across two locations.
That's a rare, credible story. Here's what we'd build the marketing around.

THE FOUNDATION

A full-service marine home

Sales, service, outboard rigging, slips and winter storage in Pasadena and Ocean City — buyers stay with you for the life of the boat, not just the sale.

THE FLAGSHIPS

Yellowfin & Nor-Tech

Two premium builders you're focused on growing awareness around in 2026 — exactly the boats that reward precise, high-intent marketing.

THE LINEUP

Cape Horn · Jupiter · Premier

A multi-brand roster that deserves a home where each builder gets its own story — not a single generic inventory list.

THE 2026 GOAL

Brand awareness that converts

Awareness is the stated target. We make it measurable — awareness that turns into inquiries you can see in an inbox.

THE OPPORTUNITY

Presence is good. *Precision* sells boats.

A great reputation on the Bay builds trust with whoever already knows your name. It can't choose *who* sees your new Yellowfin 54 or Nor-Tech 390, and it can't tell you what worked.

Targeted digital closes both gaps — we put your exact boats in front of the exact buyer profile, in the cruising grounds and ZIP codes you choose, and report on every dollar.

◇ **Target by intent, not luck**

Reach people actively shopping center-console & sportfish — not a random audience.

◇ **Geofence the right water**

Chesapeake, DC/Baltimore metro, the Eastern Shore, Ocean City and beyond.

◇ **Creative from your own boats**

Your Yellowfins, Nor-Techs and Jupiters become the ads — not stock imagery.

◇ **Every dollar is measured**

Monthly reporting on spend, reach and leads. No more guessing what worked.

— WHAT WE DO

Eight pieces, *one engine*.

Every part works together to put qualified leads in your inbox — your website feeds your content, your content feeds your social, your social feeds your ads, and your concierge keeps all of it running.

01

Website

A custom, brand-forward dealer site — no templates. Fully managed & hosted.

02

Fresh Content

AI monitors industry news & listings, then publishes articles written for your brand.

03

Social Media

Reels & posts cross-posted to Facebook, Instagram, LinkedIn & X with trending hashtags.

04

Articles

SEO articles that make you findable in Google — and in AI answers.

05

Email

Monthly digests that keep you top-of-mind, segmented by buyer profile.

06

AI Chat

Answers the "phone" 24/7 in every time zone and captures every inquiry.

07

Listings

Your full inventory on show — including off-market & co-brokerage boats.

08

Concierge

A dedicated human marketing manager who proofs & publishes across every channel.

— WE ALREADY DO THIS · FOR A DEALER LIKE YOU

Built for *multi-brand* dealerships.

We run the entire marketing engine for Valhalla Yacht Sales — a multi-brand dealer with the same core challenge you have: many builders, one growing inventory, and a need to turn traffic into real leads.

It's not a template we'd force PYY into. It's a proven playbook we'd tailor to Yellowfin, Nor-Tech, Cape Horn, Jupiter and Premier.

◇ A page per builder

Each brand gets its own story, styling and inventory — not one flat list. A natural home for your Yellowfin & Nor-Tech awareness push.

◇ A live inventory feed

Every listing pulls in automatically and stays current — new boats, brokerage boats, sold archive.

◇ Lead capture wired to your CRM

Inquiries from the site, chat and ads flow into one place so nothing slips through the cracks.

◇ One brand system, many surfaces

Website, social, email and ads all speak with one consistent voice.

— WHAT IT LOOKS LIKE FOR PYY
