

— PYY MARINE · DIGITAL GROWTH PLAN 2026

TURN YOUR EFFORT INTO AN AUDIENCE — AND LEADS.

You're already posting. This is a plan to make it compound — a real social engine for Yellowfin, Nor-Tech, Cape Horn, Jupiter and Premier that grows your following and feeds leads *you* own, not ones you rent from a marketplace.

PREPARED FOR

Mike Hatcher · PYY Marine

LOCATIONS

Pasadena & Ocean City, MD

FOCUS

Social growth & owned leads

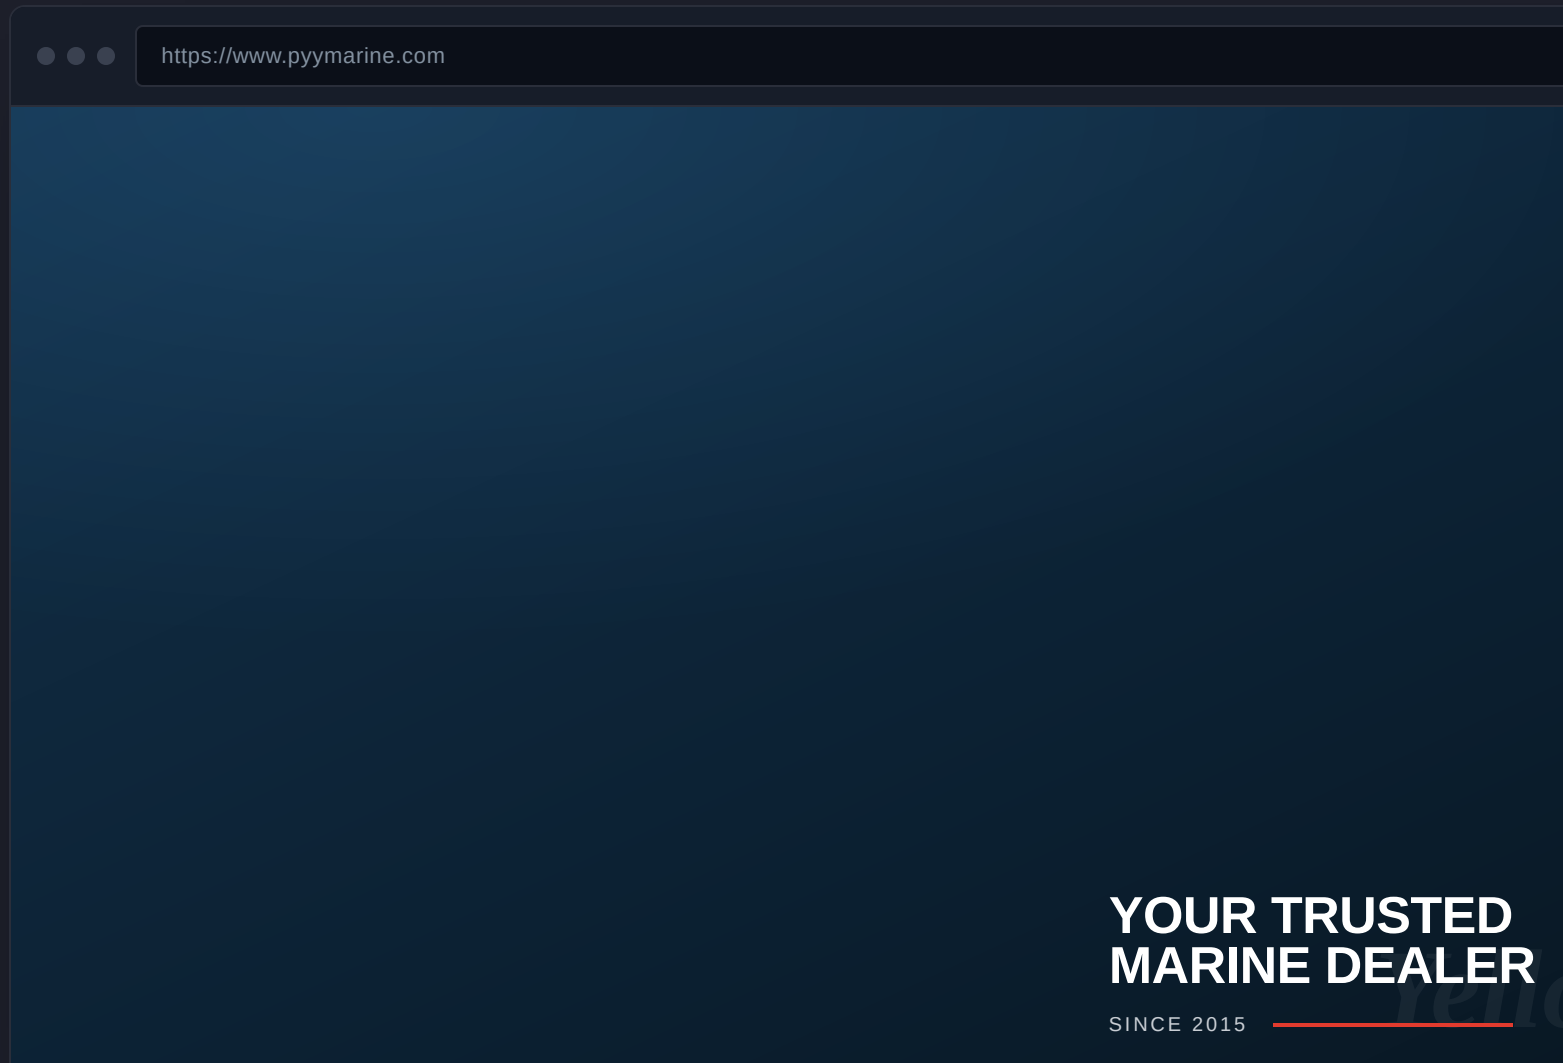

YOUR WEBSITE TODAY

A SHARP STOREFRONT — THAT WAITS FOR BUYERS.

pyymarine.com looks good and the bones are solid. The gap isn't the design — it's that a great storefront still has to sit there until someone decides to walk in. It doesn't create demand, and it doesn't capture the people your social reaches.

■ It waits; it doesn't hunt

A destination people find. Nothing here goes out and puts a Yellowfin in front of a buyer who wasn't already looking.

**YOUR TRUSTED
MARINE DEALER**

SINCE 2015

— YOUR SOCIAL TODAY

YOU'RE DOING THE WORK. IT'S NOT COMPOUNDING.

You've posted thousands of times — the effort is real. But the audience isn't growing to match, and none of it is wired to capture a lead. That's a fixable problem.

INSTAGRAM · @PYMARINE		FACEBOOK · PYY MARINE		LINKEDIN	
2,187 FOLLOWERS		8,957 LIKES		95 FOLLOWERS	
Posts	2,484	vs Instagram	~4× larger	Status	Effectively dormant
Ratio	<1 follower / post	Signal	Audiences not linked	Video	No reel engine

■ Effort without reach

2,484 posts → 2,187 followers. Volume alone stopped moving the needle — the algorithm rewards short-form video now.

■ Nothing is captured

Posts don't route to a page that pixels the visitor or grabs a name — so you can't retarget the people who engage.

— THE FIX · YOUR SOCIAL ENGINE

A REAL ENGINE — BUILT AND RUN FOR YOU.

Not more random posts. A planned, video-first system that turns your inventory and your yard into content people actually follow — and that quietly builds a lead list underneath.

■ Short-form video, weekly

Reels from walkarounds, sea trials, delivery day and the service bay — where the reach is now.

■ Consistent, planned cadence

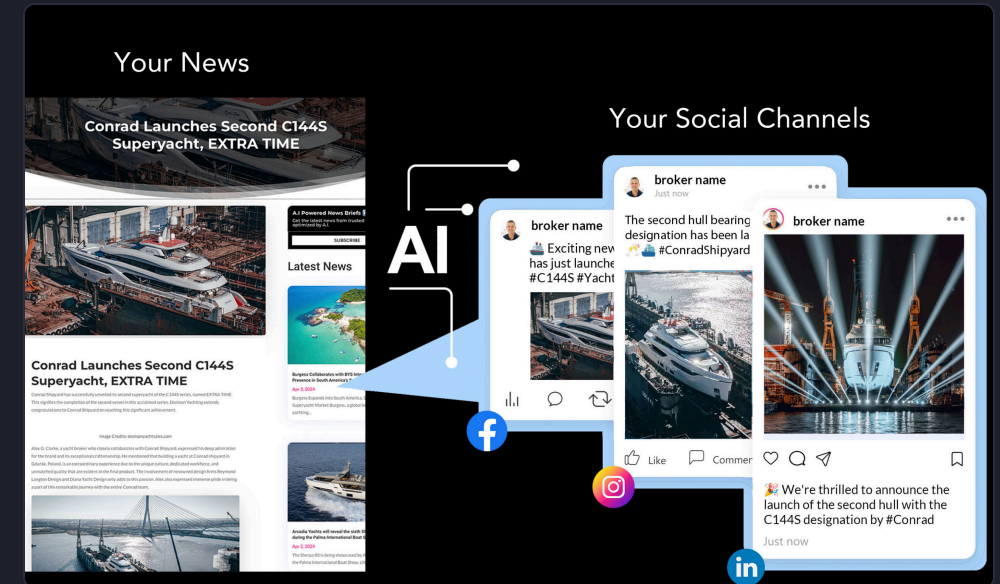

A content calendar a human concierge fills, proofs and publishes — it never lands on your team.

■ Cross-posted everywhere

Instagram, Facebook, TikTok, YouTube Shorts, LinkedIn & X — with trending audio & hashtags.

■ Every post drives to your site

So the follower becomes a captured, retargetable lead — not just a like.

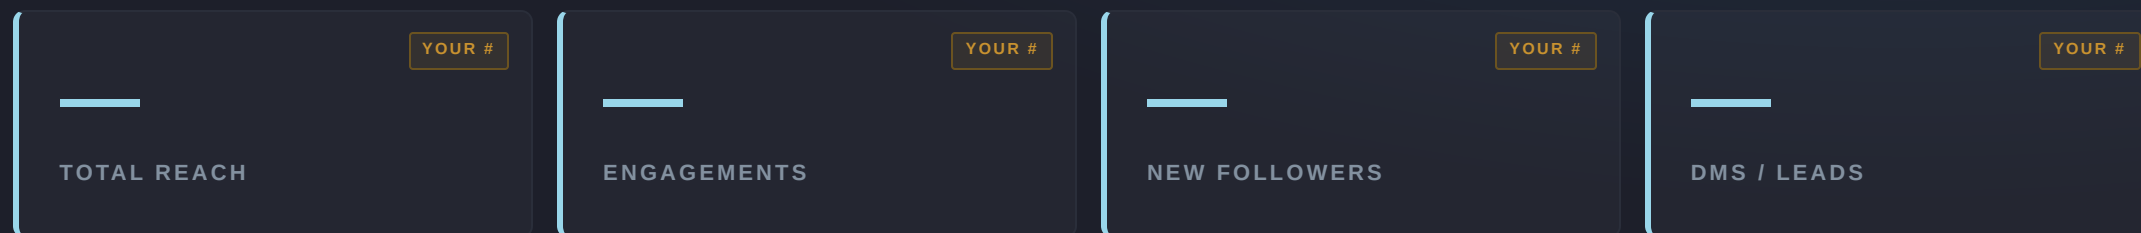

We produce, schedule and publish — you approve. The 2,484 posts of effort finally start compounding into audience and leads.

— PROOF · THE POSTS WE'VE RUN TOGETHER

THE COLLABS ALREADY OUTPERFORM.

The collaborative posts we've produced with you are the preview — the same approach, run consistently, is the engine. Here's what they did.

Placeholder tiles — I'll drop in the real numbers from our collab posts (reach, engagement rate, follower lift, top post) the moment you send them. Real figures land far harder than round claims.

— THE LINEUP

FIVE BUILDERS. EACH DESERVES ITS OWN STAGE.

Your brands share one inventory list today. We give each builder a real page — its own story, styling and boats — and its own content stream, so a Yellowfin buyer and a Premier buyer each land somewhere built for them.

SERVICE

— THE CORE SHIFT

STOP **RENTING** YOUR BUYERS FROM THE MARKETPLACES.

Boats.com, Boat Trader and YachtWorld send leads — but you pay per lead, that lead is shared with every competitor on the page, and you never keep the buyer's data. The goal isn't to drop them; it's to stop *depending* on them.

RENTING · TODAY**MARKETPLACE LEADS**

- ✗ Pay per lead, every month, forever
- ✗ The same buyer is sold to your competitors
- ✗ No email, no pixel, no data you keep
- ✗ You can't retarget or follow up on your own

OWNING · THE PLAN**YOUR OWN AUDIENCE**

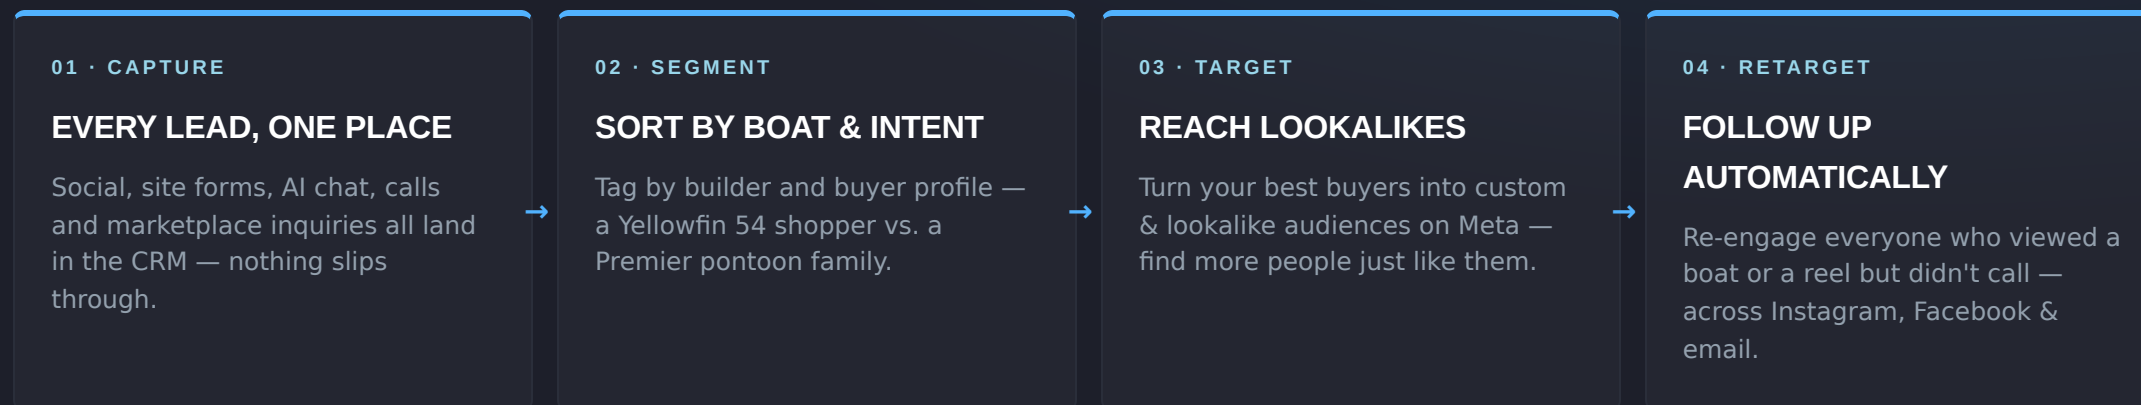

- ✓ Leads come to your site, social & CRM — exclusively yours
- ✓ Every visitor is pixelated and re-targetable
- ✓ Emails & phone numbers you keep and remarket to
- ✓ Cost per lead falls as your audience compounds

Keep the marketplaces as a top-of-funnel source — but make your own channels the engine that owns the buyer.

— THE ENGINE · CRM-DRIVEN ADS

CAPTURE ONCE. TARGET, RETARGET, REPEAT.

A CRM turns your social traffic into an asset. Every lead flows into one system — ours, or a **HubSpot** / **GoHighLevel** setup we build and run for you — and that data becomes the targeting behind smarter, cheaper ads.

The buyer who watched your Nor-Tech 390 reel at midnight sees it again tomorrow — with your name on it, not a marketplace's.

— THE REBUILD · YOUR HUB

THE SITE YOUR SOCIAL POINTS TO.

A modern, image-led dealer site is where every reel, post and email lands. It's the property you own — and the first place a buyer decides you're the right dealer.

■ A page per builder

Yellowfin, Nor-Tech, Cape Horn, Jupiter, Premier — plus service & storage.

■ A live inventory feed

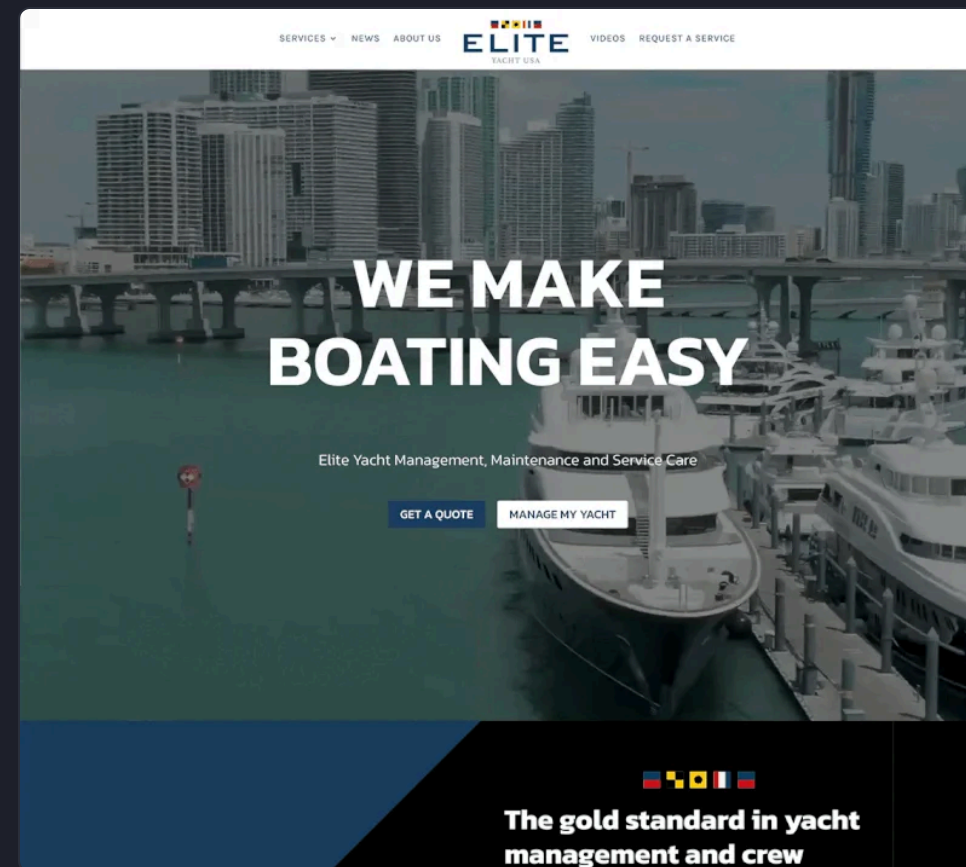

Every new & brokerage boat, always current, with a sold archive.

■ 24/7 AI chat

Captures the 11pm inquiry into your CRM instead of losing it.

■ Built for Google & AI search

So buyers find PYY directly — not only through a marketplace.

A representative build — we'd design PYY's around your five builders and your photography.

— THIS ISN'T THEORY

WE ALREADY RUN THIS FOR A MULTI- BRAND DEALER.

We build and operate the full engine for Valhalla Yacht Sales — a multi-brand dealer with your exact challenge: many builders, a live inventory feed, and a need to turn traffic into leads they own.

Same playbook, tailored to PYY: a social engine, brand pages per builder, a live feed, and CRM-driven targeting and retargeting behind it all.

■ A page per builder

Each brand with its own story and boats — a natural home for the Yellowfin & Nor-Tech push.

■ A live inventory feed

Every listing pulls in automatically and stays current.

■ CRM lead capture

Site, social, chat and ad inquiries land in one place, ready to retarget.

■ Run by yacht people

Led by Josh Valoes — ex-Marketing Director, Denison Yachting; VP & CMO, YATCO.

NEXT STEP

A HALF HOUR AT YOUR OFFICE, **NEXT WEEK.**

01**WE COME TO PASADENA**

Thirty minutes, in person — a working walkthrough, not a pitch for its own sake.

02**SEE THE BACK-END LIVE**

We open the real CRM, social calendar and dashboards we run for dealers and show exactly how it works.

03**THE RESULTS YOU CAN EXPECT**

The collab numbers, plus a first 90-day social plan for the Yellowfin & Nor-Tech push.
